Minutes:
- The February 27, 2019 Board meeting minutes were approved
- The March 1, 2019 Business meeting minutes were approved with two amendments:
  - clarify that "request to archive past proceedings" meant "request to download complete proceedings at once rather than one article at a time"
  - clarify that "conference rebranding" refers to frequent confusion between the Technical Symposium (commonly called SIGCSE) and the SIG itself. Can the Technical Symposium be rebranded?

Creation of a SIGCSE-jobs list:
- The Board approved the creation of a SIGCSE-jobs mailing list.
- S. Rebelsky will be asked to remind people periodically there are multiple lists.

CRA-W Grad Cohort event:
- SIGCSE was a sponsor and exhibitor at the 2019 CRA-W Grad Cohort event. Approximately 450 female PhD students in year 1, 2 or 3 of their programs attended. A number of these students are engaged in CS education research.
- SIGCSE sponsorship pays for one or more CS education research students to attend.
- The Board finds sponsorship of this event valuable and plans to continue to sponsor it.
• Actual attendance by a SIGCSE board member is optional.
• B. Morrison recommends that the organization create a postcard size advertisement on the SIG on one side with the 4 conferences on the back. She created a paper version for handout at CRA-W Grad Cohort and it was well received.

Technical Symposium
• A member raised concerns about visa issues should the Technical Symposium be held in Canada.
• An attendee of the 2019 Symposium suggested that we allow exhibitors who have not paid for full registration to attend the keynote talks. The Board declined to pursue this option.
• The Board approved a motion to expand the Technical Symposium by adding a full paper session after lunch on Saturday. The addition of another session will expand the number of papers that can be accepted. This change will not cause the cost of the Symposium to increase.
